

MILLBORN NATIVE MIXES

PRAIRIE FLOWER MEDLEY MIX™

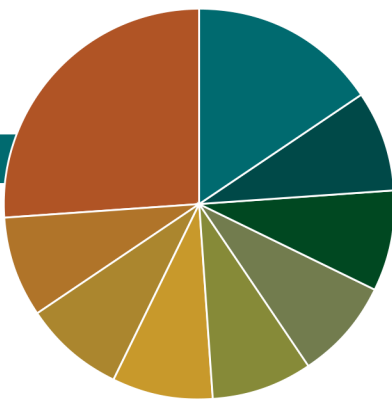

Prairie Flower Medley Mix is a mix of wildflowers that will do well in drier areas that receive a lot of sun. This mix can add a splash of color to your property. At maturity, this mix will grow to around 3' tall. Prairie Flower Medley is available either in bulk or in 5 lb bags that are pre-mixed with mulch, making application a breeze.

Specialist Establishment Tip: in all native mixes, you often won't see a mature species during the first season. Weed management and upkeep should be the number one priority during the first year. To give this mix a boost and reduce erosion during establishment, we added QuickGard Sterile Triticale to the mix.

MIX RATIO

- 15% BABY'S BREATH
- 12% SIBERIAN WALLFLOWER
- 8% AFRICAN DAISY
- 8% "POLKA DOT"
